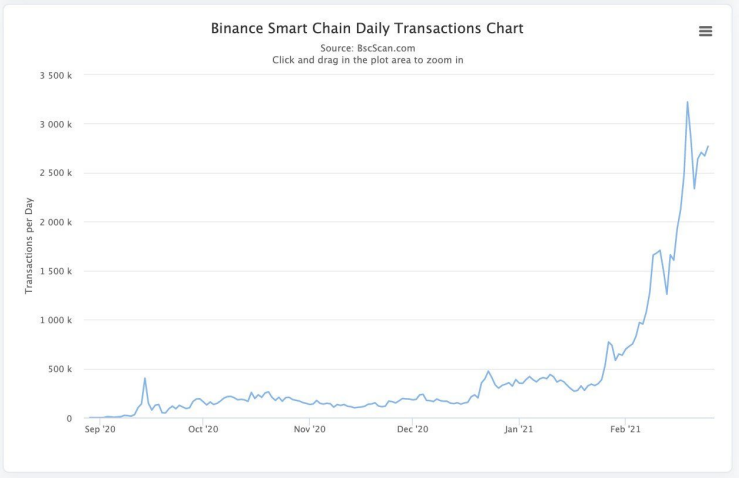
Oxbull

Charging the Future of Blockchains

Market Outlook



The market has grown 5,000% since Jan 2021. The successes from Decentralized Exchanges (DEX) such as PancakeSwap and UniSwap has greatly signified a major leap in the adoption of blockchain applications, bringing hundred millions of trading volume to the rapidly-expanding Cryptocurrency market.

- BSC daily transactions have been repeatedly breaking ATH due to the immense demand of Blockchain projects.
- Billions of volume are being transacted in DEX with no signs of slowing down.
- Hundreds of new projects are launching every single day.

Why Oxbull.Tech?

This sudden surge of interest is not without its challenges. The power of determining the future of blockchains lies in the many hands of **Smart Contract Developers** and **Project Creators**. With the current high demands on Blockchain Projects and driven by wrong intentions, Scams and Rug-Pulls are now becoming more rampant.

Oxbull.Tech is aiming to change that and help drive the next generation of Blockchain projects.

Introducing Oxbull.Tech

A Startup Incubator and Launchpad developed By Tech Enthusiasts. Oxbull.Tech hopes to help **Startups** with the necessary funding and support to kick start their project in the most efficient way possible.

From there, Oxbull.Tech shall connect quality and credible blockchain projects with **Investors**.

The Oxbull way is driven by **Quality, Credibility, and Relentless Execution**. And that is what you can expect from the projects launched with/by Oxbull.Tech

Vision

Oxbull.Tech to become the **World's Greatest Blockchain Community**, helping to create **1,000** credible and successful startups that brings impact and value to the world.

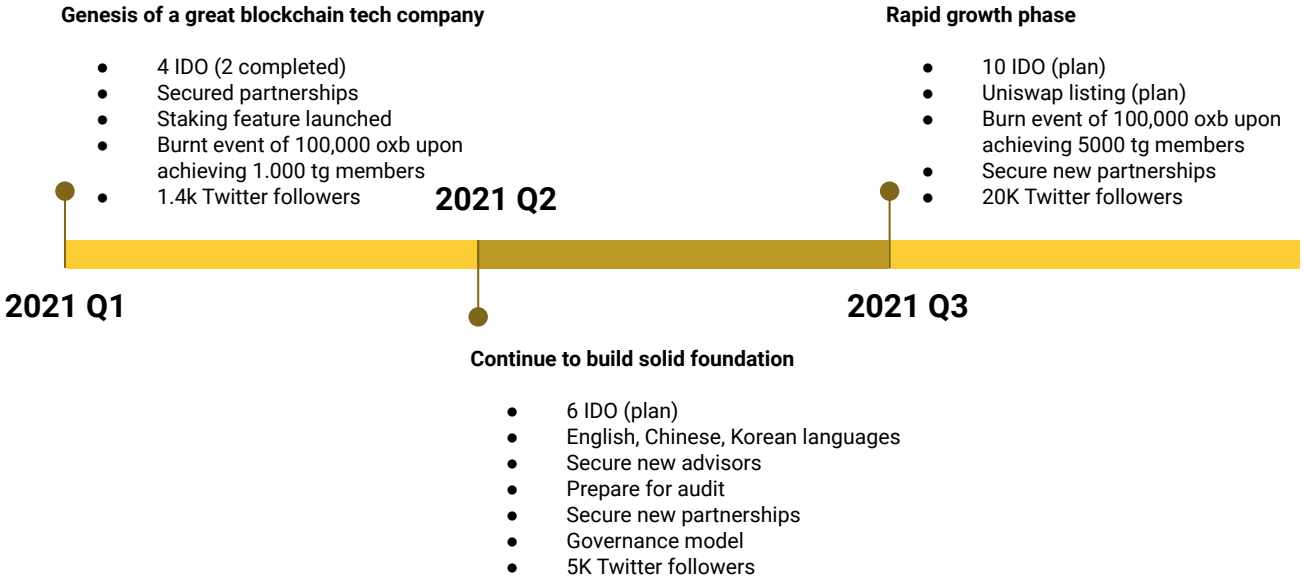
- **2% OXB market buy**

Roadmap Overview



OXB Token Utility

OxB is the native token on the ecosystem and a key factor in the incubation process.

Being a Reflective token and a quality fork of RFI, all OxB transactions incurs a 2% fee which redistributes the tokens amongst all holders. The redistribution is govern by smart contracts and is reflected real-time in the holders' balance.

Holders of a fixed minimum number of OxB tokens shall have early access to upcoming projects within the OxBull ecosystem, helping to finance and support the growth of new ideas.

OXB Token Structure

🔋 Total supply 10 million OXB:

- 💸2.5million presale
- 💰0.5million marketing
- 💰0.5million ecosystem fund (locked)
- 💰0.5million team token (locked)
- 💎1.5million liquidity for PancakeSwap (locked)
- 💎1.0million liquidity for upcoming listing/to be burned (100k burnt)
- 🚜2.0million staking pool reward allocation
- 🚜1.5million future partnership

Oxbull.Tech Team

0xUshi: 10 years of experience in tech sectors, tech team management and leadership experience for over 150 people, managing billions of transactions per year, won multiple hackathons.

0xWagyu: 4 years of experience in tech sectors, built hundreds of applications, won multiple hackathons.

0xAto: An up and rising designer from top design university, created hundreds of illustrations for corporate and startups, the brain behind Space Cowboy.

Milestones

- Launched 2 blockchain projects in 8 days - OXB and SCB (Space Cowboy).
- Conducted 2 successful pre sales which was sold off in 100 seconds, oversubscribed by 1000 BNB. Staying true to our values, refunded the excess 1000 BNB to investors with no questions asked.
- Launched yield farming space farm in 3 days.
- Limited edition NFT series sold out in 45 mins on our SCB platform.
- Burnt event of 100,000 OXB upon achieving 1,000 Telegram members.
- Successful recovery from crisis (originating from a bug)and compensated impacted investors.
- First organic youtube review 8 days into launch.
- 1,400 twitter followers within 10 days.

What people are saying

The best devs in BSC. I am going to invest in every projects that you bring on.

Dan

The speed of execution of Oxbull.Tech is amazing.

Billythebit

Oxbull.Tech truly cares about their investors.
