

BABY DOGE CASH

WHITE PAPER

WWW.BABYDOGECASH.COM

WHAT IS BABYDOGECASH?

Launched July 1st, 2021 BabyDogeCash is one of the fastest growing token to be listed on other platforms. BabyDogeCash is a community based DeFi project which was launched on Binance Smart Chain. It aims to bring instant rewards to holders with deflationary tokenomics and static reflections.

BabyDogeCash is decentralized and on a mission to take crypto to a whole new level while also donating money to rescue dogs in need. The ultimate baby of all doge coins, a new crypto has risen taking the DeFi world by storm, with an integrated smart staking system built in to reward you, so more BabyDogeCash coins are being automatically added to your wallet with each transaction.

BABY DOGE CASH VALUES COMMUNITY

BabyDogeCash is a decentralized project which means it is ultimately owned by the community.

This means we encourage holder contribution towards marketing, community engagement and development. Working together as a community has helped us gain over 5000 holders in two days.

TRANSPARENCY

We always aim to maintain transparent and open communication with our holders, so they are always informed about the current and future direction of our growth through social media platforms.

TRUST

Trust is essential in the world of cryptocurrency, and it is something we take seriously. This means not only providing transparency, but security as well. We have locked our liquidity tokens and soon we will invest in security audits of BabyDogeCash's contract.

WHY BABYDOGECASH IS SAFE?

BABYDOGECASH is fully vetted and rug-safe!

CONTRACT OWNERSHIP

The ownership has been renounced to the 0x00 address after creation.

LOCKED LP TOKENS

100% of the liquidity pool tokens were **LOCKED**, which makes them untouchable!
