Decentralized Exchanges

2000+

Successful Projects
via IDO Launchpads

100+

New Projects Being
Launched Everyday

BASED ON INITIAL FOCUS

02

EXISTING
PROBLEMS

ACTUAL ISSUES.

01

TIME-CONSUMING
Token Minting

Resources absorbing
token minting process

Lacks audits, invites exploits

02

TRUSTLESS
Token Vesting

Suspicious and unaudited
token vesting & release

Creates fearful environment

03

DISCRETIONARY
LP Token Lock

Non-mandatory LP token
locks - generated by DEXs

Manifests rug pull and scams

04

ABSENSE OF
Staking Events

Unsatisfactory and costly
third-party staking services

Such absence invites price falls

ACTUAL ISSUES.

05

NON-EXISTENT
LP Mining Plan

Onerous LP mining smart contracts and schemes

Makes token value evaporative

06

BEREAUCRATIC
Launchpads

Centralized onboarding system for new projects

Skips innovative ideas

07

UNBALANCED
IDO Structure

Unfair IDO participation method – FCFS schemes

Disappoints & drops investors

08

INFLATED
Service Fees

Impractical and concealed offered service fees

Drives difficulties in adoption

03

NATIVE
SOLUTION

TOKEN
INTRODUCTION

$BLOS TOKEN.

Sale Participation

Enables BLOS stakers to purchase tokens offered by various multichain presales and public sales on the launchpad.

Community Voting

From platform decisions to approve projects on launchpad, required governance will be powered by BLOS tokens.

Staking Incentives

Active stakers will automatically be eligible to receive BLOS rewards post successful governance and IDO events.

$BLOS TOKEN.

Platform Fees

Offering affordable suite of DeFi applications for teams and communities with a fee paid in BLOS tokens.

Mining Rewards

BLOS as mining rewards to DEX liquidity providers for maintaining liquidity and contributing to a healthy volume.

Buy Back & Burn

Certain percentage of fees collected via offered products will be utilized to buy back and burn BLOS tokens periodically.
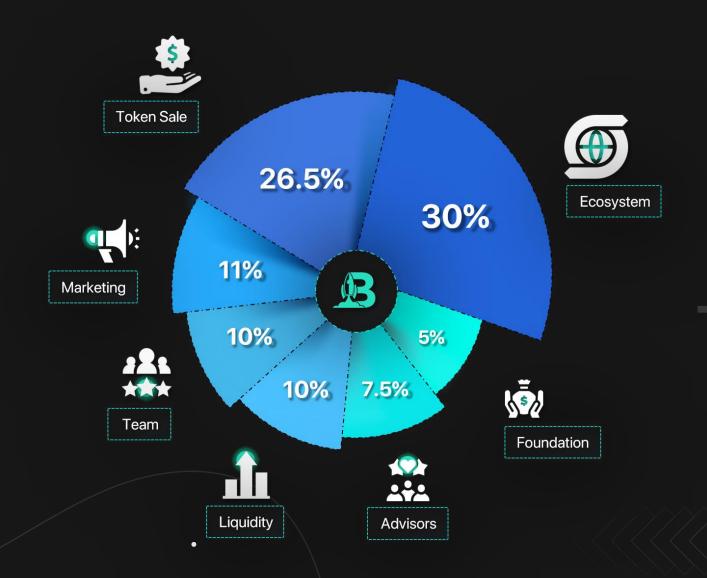

TOKEN METRICS.

TOKEN TICKER	BLOS
TOKEN TYPE	BEP-20 (BSC)

ONBOARDING FLOW.

CRITERIA SELECTION
Determine parameters you want to offer/keep for your native tokens

LAUNCH PUBLICLY
Allow your token holders to interact with permissionless offerings

APP INTERFACE
Access a suite of applications based on specific requirement/demand

DEPLOY ON MAINNET
Finalize your offerings and deploy on mainnet right from our interface

# IDO ONBOARDING.

POOL CREATION

Pool creation after cross verifying details to reduce spam & save time

INVESTMENT POOL

IDO gets moved to investment pool for the fundraising from investors

IDO APPLICATION

Apply for IDOs with tokenomics, LP provision and token smart contract

COMMUNITY VOTING

Any BLOS holder will be able to cast Yes/ No vote after own diligence

ROAD
TO MARKET

ROADMAP.

Q1 2021

- Market Analysis
- Conceptualization
- Infrastructure setup
- Lottery contract testing

Q1 2021
Q2 2021
Q3 2021
Q4 2021
Q1 2022

Q1 2022

- LP Mining Platform v1
- Token Minter Mainnet
- New UI Updates
- Onboarding New Chains

Q2 2021

- Token Vesting Testnet
- LP Locking Testnet
- Whitelist Contract Test
- Advisor Onboarding

Q4 2021

- IDO, DEX Listing
- LP Mining Testnet
- Blockius Vesting v2
- Multichain Launchpad TN

Q3 2021

- Blockius Vesting v1,
- Blockius LP Locker v1
- Partnership Formulation
- Token Staking Testnet
