

BLOKPAD

BY BLOKTOPIA

“ An Exclusive Launchpad Built on BSC Network & Polygon ”

WELCOME TO BLOKPAD
The Multi-chain Launchpad

LIGHTPAPER | V1.0 | JANUARY 2022

What is **\$BPAD** & Background to the Launch

\$BPAD has been created following the successful launch of the first IDO on BlokPad – Project SIDUS. In launching the project, the Blok team encountered numerous hurdles, costs and questions from the community.

We therefore decided to set up **\$BPAD** so we could continue with the offering to both Bloktopians and Non Bloktopians and bring some of the most successful crypto projects to market. The small raise will help to facilitate running costs of development, marketing, customer service and recruitment costs to run the BlokPad platform. This will mean no fees will be charged to participants on both BlokPad VIP and ESSENTIAL.

A key aspect of the BPAD ecosystem is that it will offer attractive APY staking rewards as well as access to exclusive launchpad projects.

\$BPAD is also being bought to the community on the Binance Smart Chain. The Proof of Staked Authority (PoSA) has made transaction times faster and more importantly considerably cheaper which is one of the main reasons **\$BPAD** is being launched.

Be part of a community that builds and creates the future projects of crypto.

VIP & ESSENTIAL

A TOKENISED MULTI-CHAIN LAUNCHPAD AVAILABLE FOR

VIP / \$BLOK / polygon

WHAT IS BLOKPAD VIP?

BLOKPAD VIP will be an incubation and IDO launchpad service for elite projects. The staking token for allocation in BLOKPAD VIP will be **\$BLOK**. This will be done via the Polygon Network (POLY).

ESSENTIAL / \$BPAD / BINANCE SMART CHAIN

WHAT IS BLOKPAD ESSENTIAL?

Blokpad ESSENTIAL will be launchpad service for any project wishing to launch. The staking token for allocation in BlokPad ESSENTIAL will be **\$BPAD**. This will be done via the Binance Smart Chain Network (BSC).

ATH ROI SINCE IDO

15th November BlokPad were delighted to announce the launch of their first IGO – Project SIDUS.

SIDUS is developing an AAA-level, NFT and RPG game, applying WebGL technology to it, which is something that’s never been done on this scale before, to create a new generation of gaming.

BlokPad secured an allocation of \$500,000 for the Bloktopia community and the project sold out immediately. A Tier 9 Allocation of \$736 secured a participant 204,550 Sidus Tokens and 2,045 Senate Tokens. At today’s prices of \$0.116 for Sidus Token and \$3.10 for Senate Token, the full allocation is worth \$30,066 which increase on your investment of 41x.
