At the end of the season, depending on the category and tier of the purchased property, as the NFT owner, you will be able to earn Tokens accordingly.

If the business is rented by an Off-chain user, you will gain more Tokens. This creates a merging of both economies.

These collections encapsulate the most famous places in the world, from the top 200 Best Restaurants of the Year to the 8 Wonders of the World. NFT owners with businesses in these collections will have the advantage of renting them or selling them as an NFT to someone else in the future due to the popularity they hold in such a competitive market.

Selling

You will have two options when it comes to selling Business to others. It can be through a direct offer or auction into the game and via external marketplaces such as Binance NFT Marketplace.

Renting

The NFT owner can publish a contract on a public board that fully controls its renting conditions. They will be able to set:

- The time duration of the rent
- The initial payment or current purchase payment
