## WHAT'S INSIDE?

# MEET DOGELANA

Thanks to the cutting-edge blockchain technology provided to us by Solana Labs, the Solana ecosystem is faster, more efficient, and more powerful than all of the other blockchains out there.

Once that was realized, it was a no-brainer to have a staple Shiba Inu-inspired SPL token on the Solana blockchain.

The rest is history.

Dogelana flung into existence with excitement and perfectionism. He is the fastest doge that has ever existed, and he is the coolest, too.

The wave of innovative capabilities, community empowerment, and technological supremacy that Dogelana brings to the table is truly next-level.

## TOKENOMICS CONTINUED

Dogelana truly loves other animals, and so 15% of the maximum total supply (2.25 billion) of Dogelana (\$DGLN) has been dedicated to fulfilling our new and caring "Milestone Charitable Donations" concept.

As the value of Dogelana (\$DGLN) reaches certain milestones, the charitable donations will be initiated. At each of the four milestones, these donations will be divvied up amongst the top ten animal-supporting charities or shelters, as chosen by the community through voting.

Here are the \$DGLN value milestones that will initiate charitable donations and give so many animals hope:

- 1. \$DGLN reaches \$0.0001 each:**  
562,500,000 \$DGLN worth \$56,250 is shared amongst the top ten
- 2. \$DGLN reaches \$0.001 each:**  
562,500,000 \$DGLN worth \$562,500 is shared amongst the top ten
- 3. \$DGLN reaches \$0.01 each:**  
562,500,000 \$DGLN worth \$5,625,000 is shared amongst the top ten
- 4. \$DGLN reaches \$0.1 each:**  
562,500,000 \$DGLN worth \$56,250,000 is shared amongst the top ten

## COMMUNITY

The Dogelana community is without a doubt the strongest one in the Solana ecosystem.

With Shiba Inu lovers, cryptocurrency enthusiasts, gamers, musicians, writers, programmers, marketers, investors, and so many more wonderful individuals, our community is full of love, life, and good vibes.

At the same time, the Dogelana community is very serious about the technology in play here. The pure power and flexibility of Solana is truly out of this world, and Dogelana holders know that.

As Solana grows to become the leading global blockchain used by institutional and private developers alike, this Shiba Inu-inspired SPL token is aiming for the moon's moon.

With so many Dogelana features and experiences yet to be revealed, the fun is only beginning.

## NFTs

We are pleased to announce that the Dogelana ecosystem contains some of the most impressive and sought after Shiba Inu-inspired NFTs in the Solana ecosystem.

State-of-the-art 3D rendering and cutting-edge design techniques used in Dogelana NFT development has yielded a beautiful, original, ever-growing, and technologically empowered digital art NFT collection that is sure to please.

New Dogelana NFTs will be released for minting in batches over time. Every NFT in the collection is created with incredible attention to detail and consistency.

The only way to mint a brand new Dogelana NFT is to exchange a fixed amount of Dogelana (\$DGLN) for the official Dogelana NFT of your choice (\$DGLNFT).

Once you hold the unique \$DGLNFT token in your Solana wallet, you can send it to whoever, whenever.

Since they are powered by Solana, it will be near-instant to transfer ownership of these NFTs, and will cost almost nothing to do so.

## GAMES

Gaming is a very important part of many people's lives. It's not only fun and exciting, but games can lead to unforgettable experiences, lessons, and relationships.

Because Dogelana has such a strong community focus, gaming then is also very important to Dogelana.

In order to bring the two together, our developers are working tirelessly on creating socially interactive, multiplayer, NFT-integrated, play-to-earn, Dogelana-themed video games.

In these varying games, a Dogelana NFT (\$DGLNFT) held in your wallet can be represented by content in the video game.

You will be able to access your \$DGLNFTs across the many Dogelana games.

This will lead to a highly customizable and flexible digital game asset ecosystem that will be enjoyable, trustworthy, and secure.

In addition to NFT integration in upcoming Dogelana video games, top players will be rewarded with Dogelana (\$DGLN) on a regular basis, creating incentives to continue playing and earning.

Remember that you can then exchange your earned \$DGLN into more unique \$DGLNFTs to fully gear up in the Dogelana games!

## OWN DOGELANA

Getting your hands on Dogelana is a breeze.

50% of the maximum total supply (7.5 billion) of Dogelana (\$DGLN) has been loaded into a decentralized liquidity pool on the Serum-based DEX Raydium for a fair and accessible launch.

This ensures that no single entity can mandate that supply, and that natural trading action and accumulation will occur.

In order to obtain Dogelana, you will have to connect your Solana wallet to Raydium and proceed to swap USDC (\$USDC) for Dogelana (\$DGLN).

You will now be a proud holder of Dogelana, and will gain bragging rights, among other things.
