# Mission

To Bridge the Divide

# Vision

To combine both the traditional and modern financial structure into a new open and transparent opportunity to generate a truly decentralised (Defi) cryptocurrency funded hedge fund. Over a 4 year period the aim is to move from asset accumulation to revenue generation, transforming the project from a token-based utility to an NFT-based format that leaves all remaining participants with potentially life-changing passive income.

# Values

Transparency and fairness.

Confidence based on competence.

Fundamental value, not hype.

# The Problem with the World of Finance

Over the last decade, the entire global financial landscape has changed irrevocably, completely upending the world of traditional finance. The transition from a centralized to a decentralized, digital one has caught most by surprise. As tech entrepreneur and cryptocurrency advocate Andreas Antonopoulos said, when an industry, such as finance, transitions to a more decentralized and open model then a “tsunami of innovation that was pent up for decades is suddenly released”. It is our considered opinion he is most certainly correct. We are in the early stages of a comprehensive paradigm shift that will alter every high technology industry on earth.

With the emergence of block chain technology and the meteoric expansion of the digital asset space it has enabled, we are about to witness the economic and technological equivalent of a global tsunami of innovation.

Soon we all will look back on quaint traditional finance norms and wonder how we ever endured the centralization, the poor but expensive services, the lack of flexibility and accountability . Antiquated and highly distrusted, the current system of banking and finance reflects attitudes more at home to the early 20th century than the 21st century. The global markets as they stand currently remain largely controlled by governments and central banks, an arrangement that tends to benefit a relatively select few. This system is plagued with a lack of transparency and responsiveness to the needs of most people.

# The Solution – Ghost Trader

With the rise of decentralized finance (DeFi), everyday people have finally begun to gain access to financial goods and services that provide the value and utility they need. The adoption of decentralization has thrown the doors of innovation wide open. Ghost Trader, the world's first tokenized hedge fund, intends to provide contributors with an elite-level trading service. Previously, such things were simply not available to the vast majority of people.

Ghost Trader offers something entirely unique and remarkable: a tailor-made way to open the doors of hedge fund trading to the masses. Traditionally, highly skilled individuals, such as traders, were only able to work for large corporations and hedge funds if they wanted access to the capital needed to work as a trader. This centralised system functionally excluded the vast majority of people from access to these types of individuals and the benefits that they confer. Ghost Trader has developed an ecosystem that allows ordinary contributors to utilise the blockchain, facilitating interaction between traders and contributors without centralized corporations acting as monopolistic middlemen.

Our trading team possesses superlative trading acumen, financial professionalism, and a level of market knowledge and expertise rarely encountered in the traditional finance space, much less within the DeFi space. Ghost Trader has established a disruptive FinTech ecosystem that provides participants with multiple opportunities to gain returns.

# Your Participation Invite

Ghost Trader is intended as an opportunity for a professional, like-minded community wishing to share their successes together. This project is for informed, patient individuals comfortable with making the journey with us, as Ghost Trader builds the tools necessary to bridge the gap between the elite members of our society and the rest of us. We make no promises, we make no false claims, sometimes our returns may dip but we are confident that our compounding model will return a passive income comparatively unrivalled in this space.

Please understand up front: success for Ghost Trader is not solely measured by token price. Rather, it is measured by the longevity of the project and the consistent, market-beating returns that we aim to achieve. We truly want to share our achievements as broadly as possible. Hence, we give the largest portion of our profits to our holders first. In order to accomplish this, Ghost Trader is taking a unique approach in this new world of block chain and DeFi.

# Project Mechanics

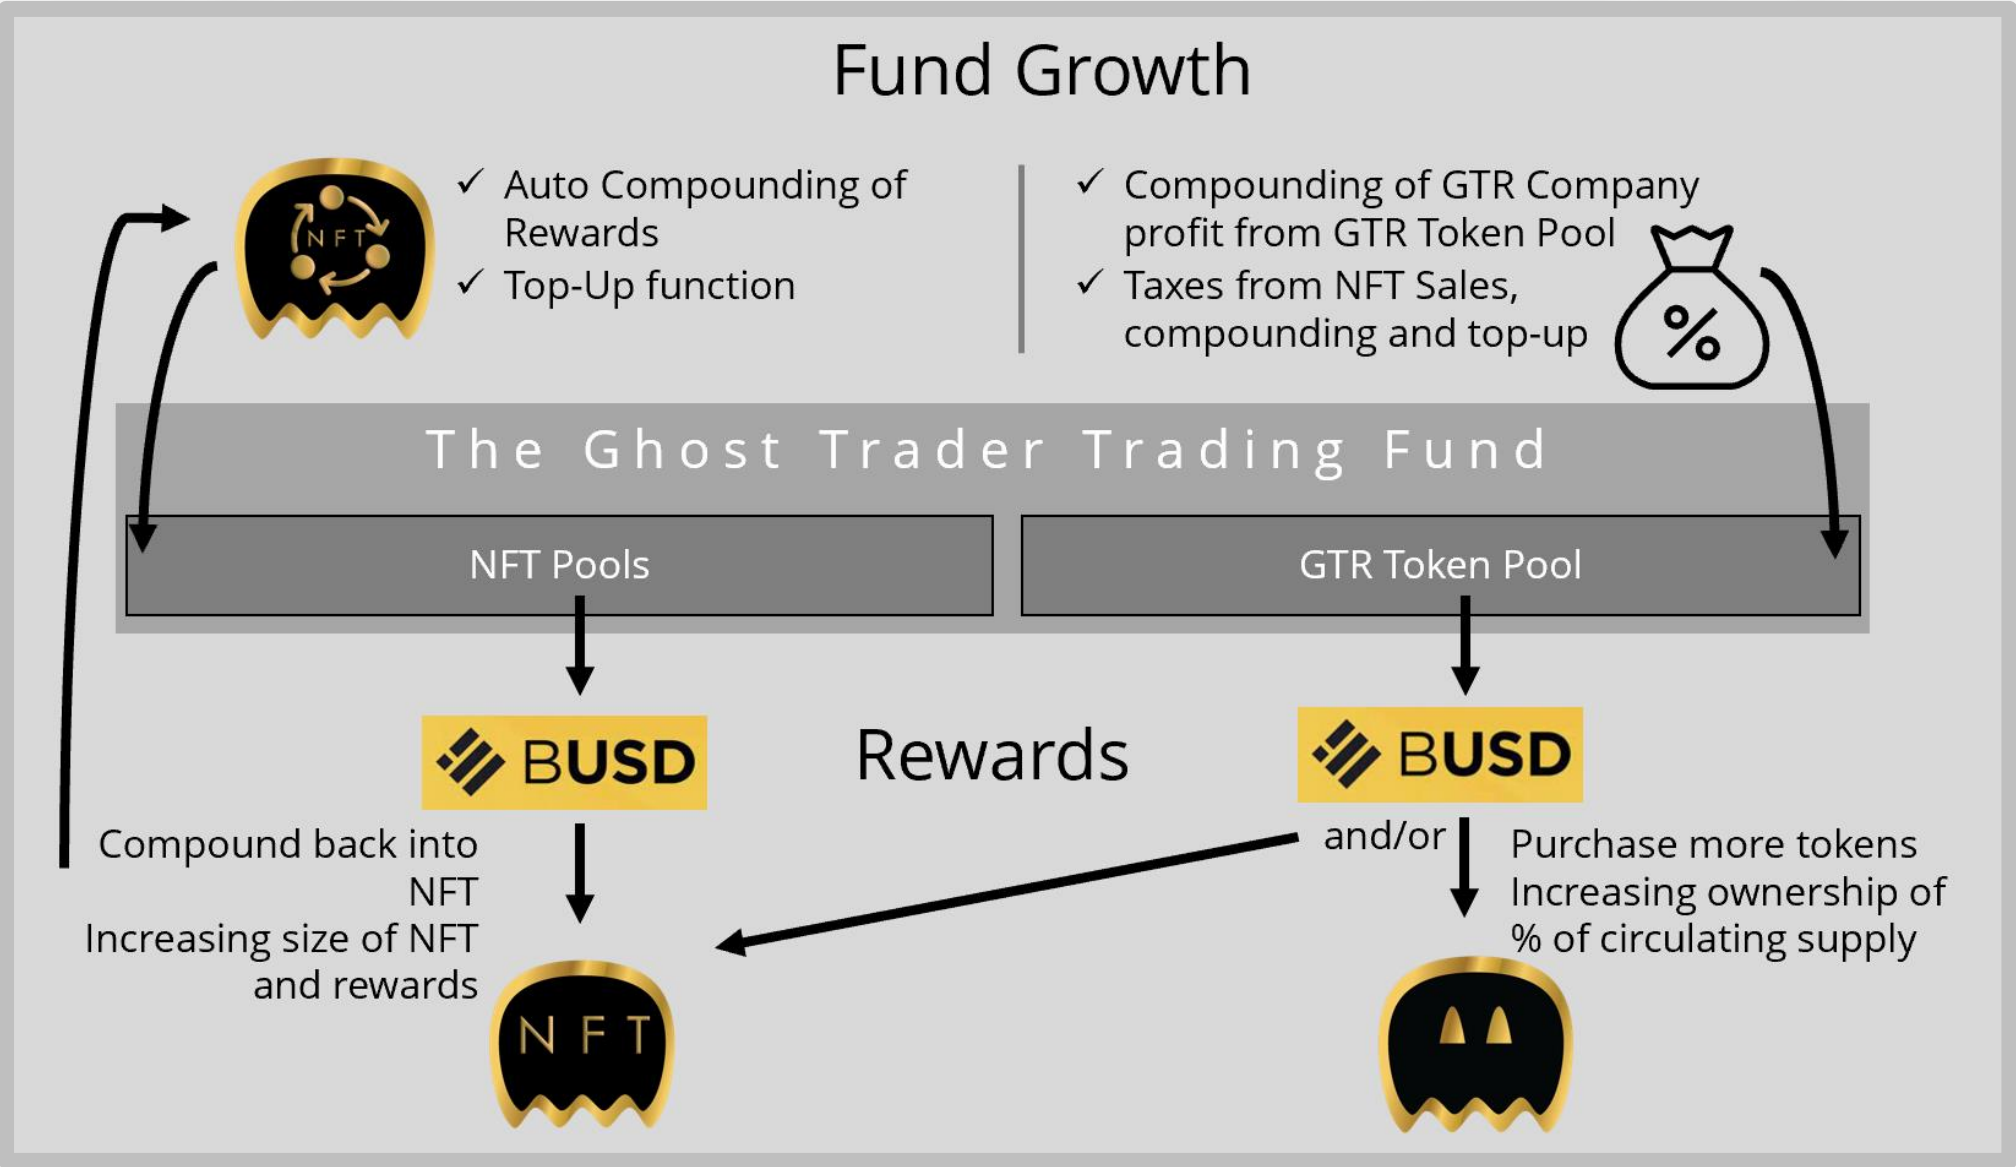

The Ghost Trader project is established on the Binance Smart Chain (BSC) and has created a \$1m trading fund so far, via private contributors/early adopters and its growing bank of supporters. The tokenomics mechanism insures this will continue to grow.

The Ghost Trader and his team trade this fund in traditional markets like gold, forex, oil and indices. The monthly trading profits are distributed to GTR token holders and GTR NFT owners in BUSD.

Diversifying out of the crypto markets and receiving rewards in BUSD creates monthly rewards that are not reliant on the token price or crypto markets.

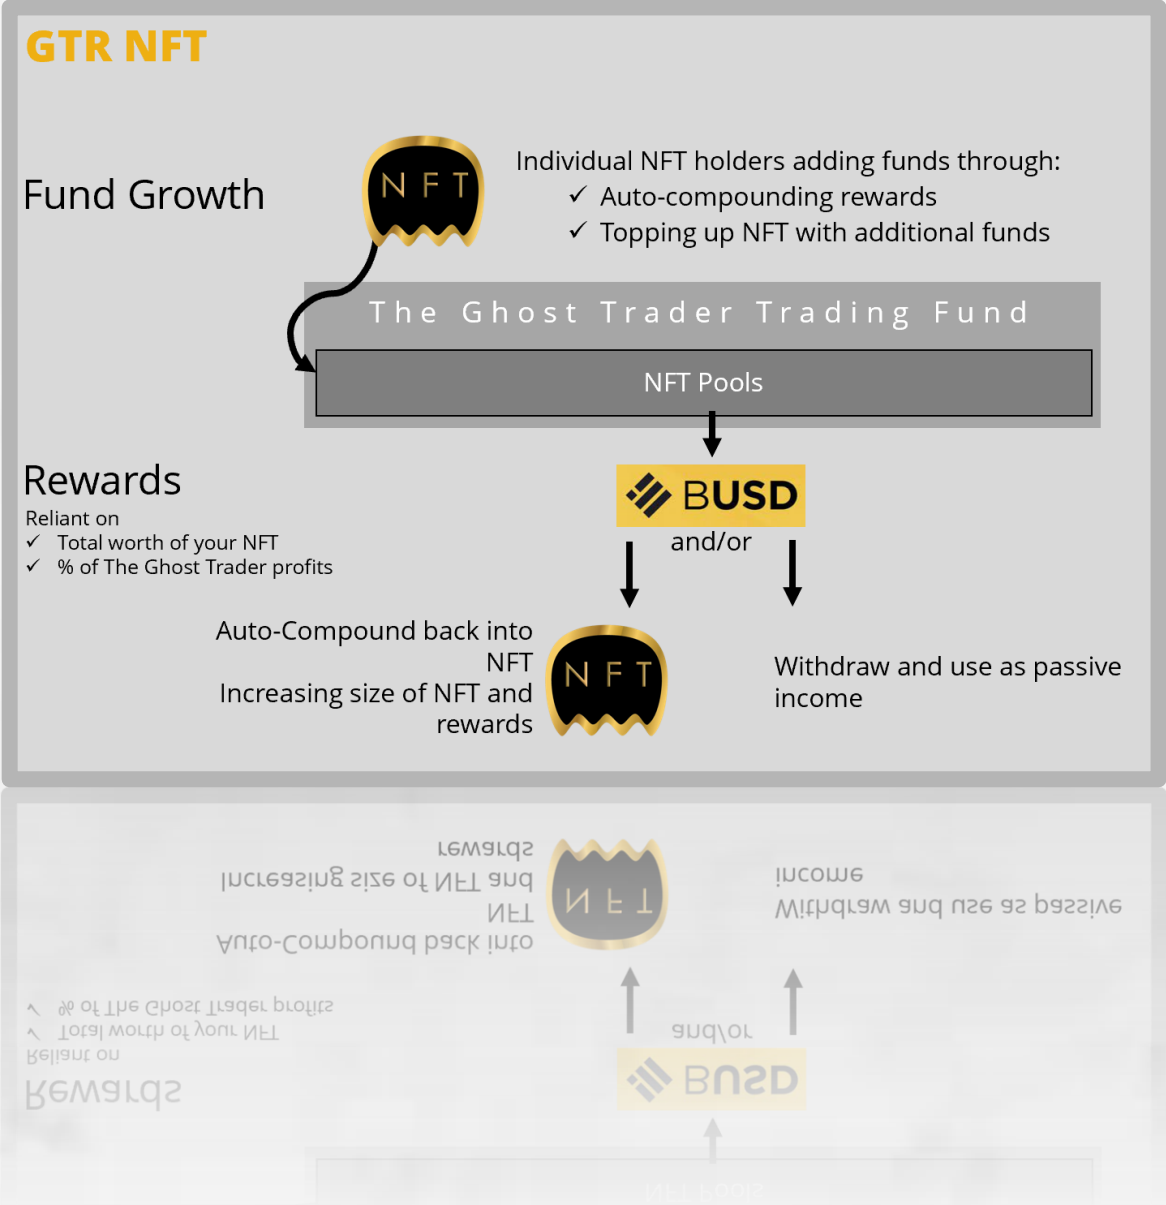

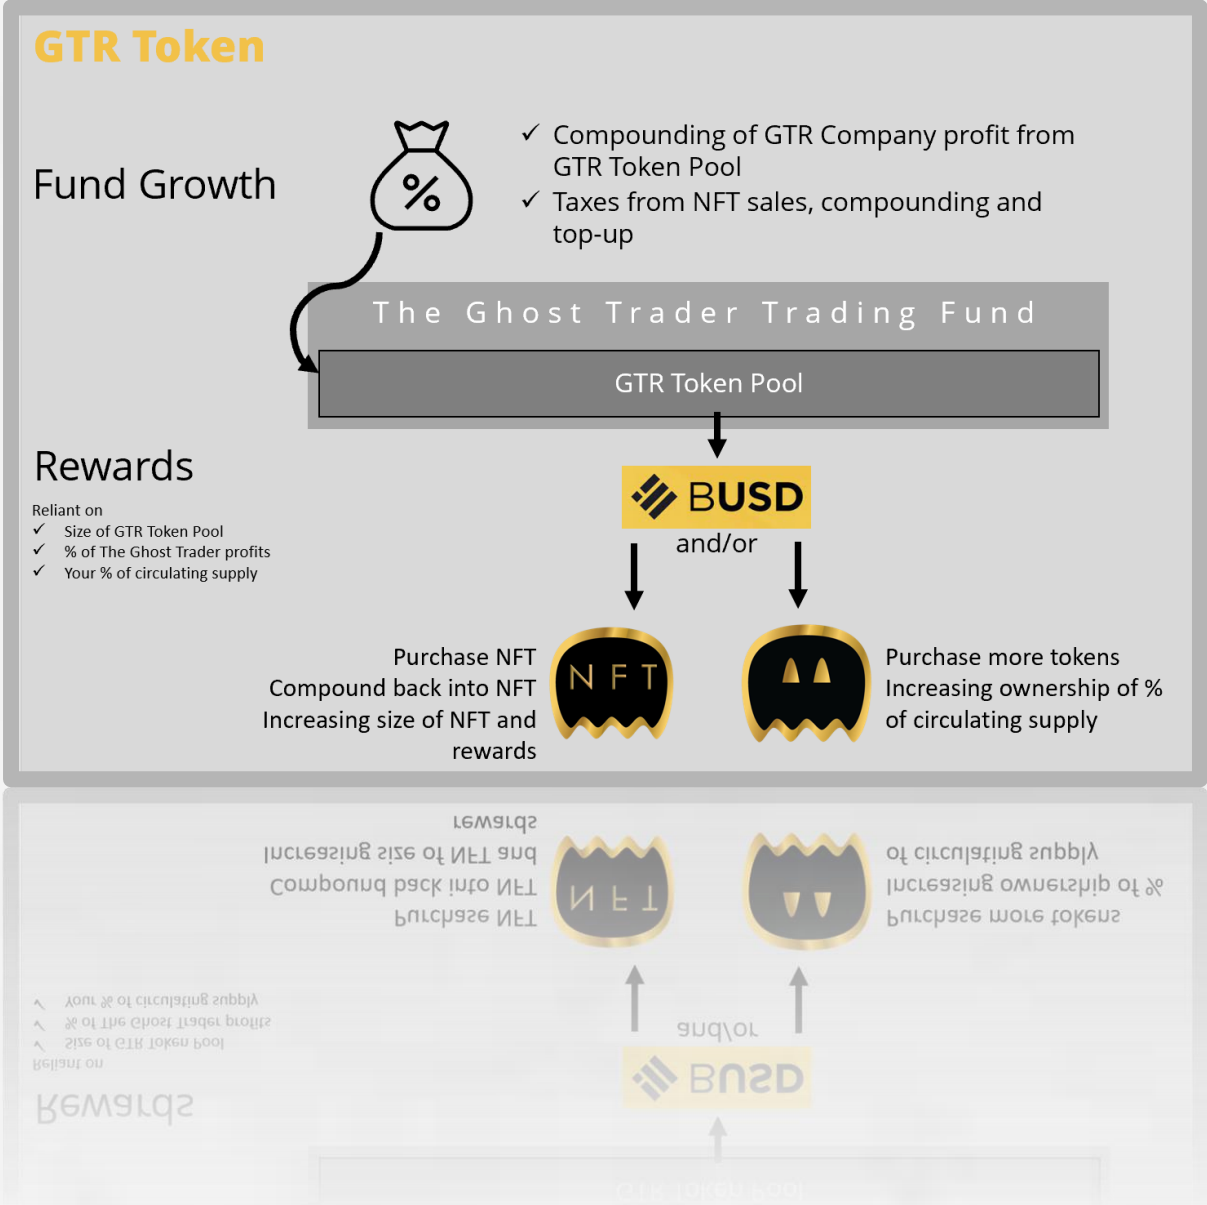

NFT holders have the opportunity to not only compound their monthly rewards but also add additional funds through the top-up function. Contributors can use the token to accumulate capital and rewards, gradually moving them into the stability of their NFT.

To work toward meaningful passive income a growing trading fund is key. The Trading Fund continues to grow monthly with NFT holders and the GTR Company compounding rewards, top-ups by NFT holders and NFT taxes driving the growth.

# Tokenomics

Ghost Trader has a streamlined internal mechanism to facilitate the generation of capital and maximize the reward stream to GTR Token and NFT holders.

For in-depth tokenomics details please refer to The Tokenomics Paper

# GTR Token and Token Pool

The GTR token acts as a mechanism to generate capital over time and also serves as a way of introducing new contributors to the trading environment for a possible transition into NFTs. GTR Token holders are entitled to receive rewards based on the % of the circulating supply they hold.

The amount received in rewards is dependent on not only the % of profit created by The Ghost Trader, but also the total size of the GTR Token pool, combined with the number of tokens in circulating supply. The GTR token pool grows organically through:

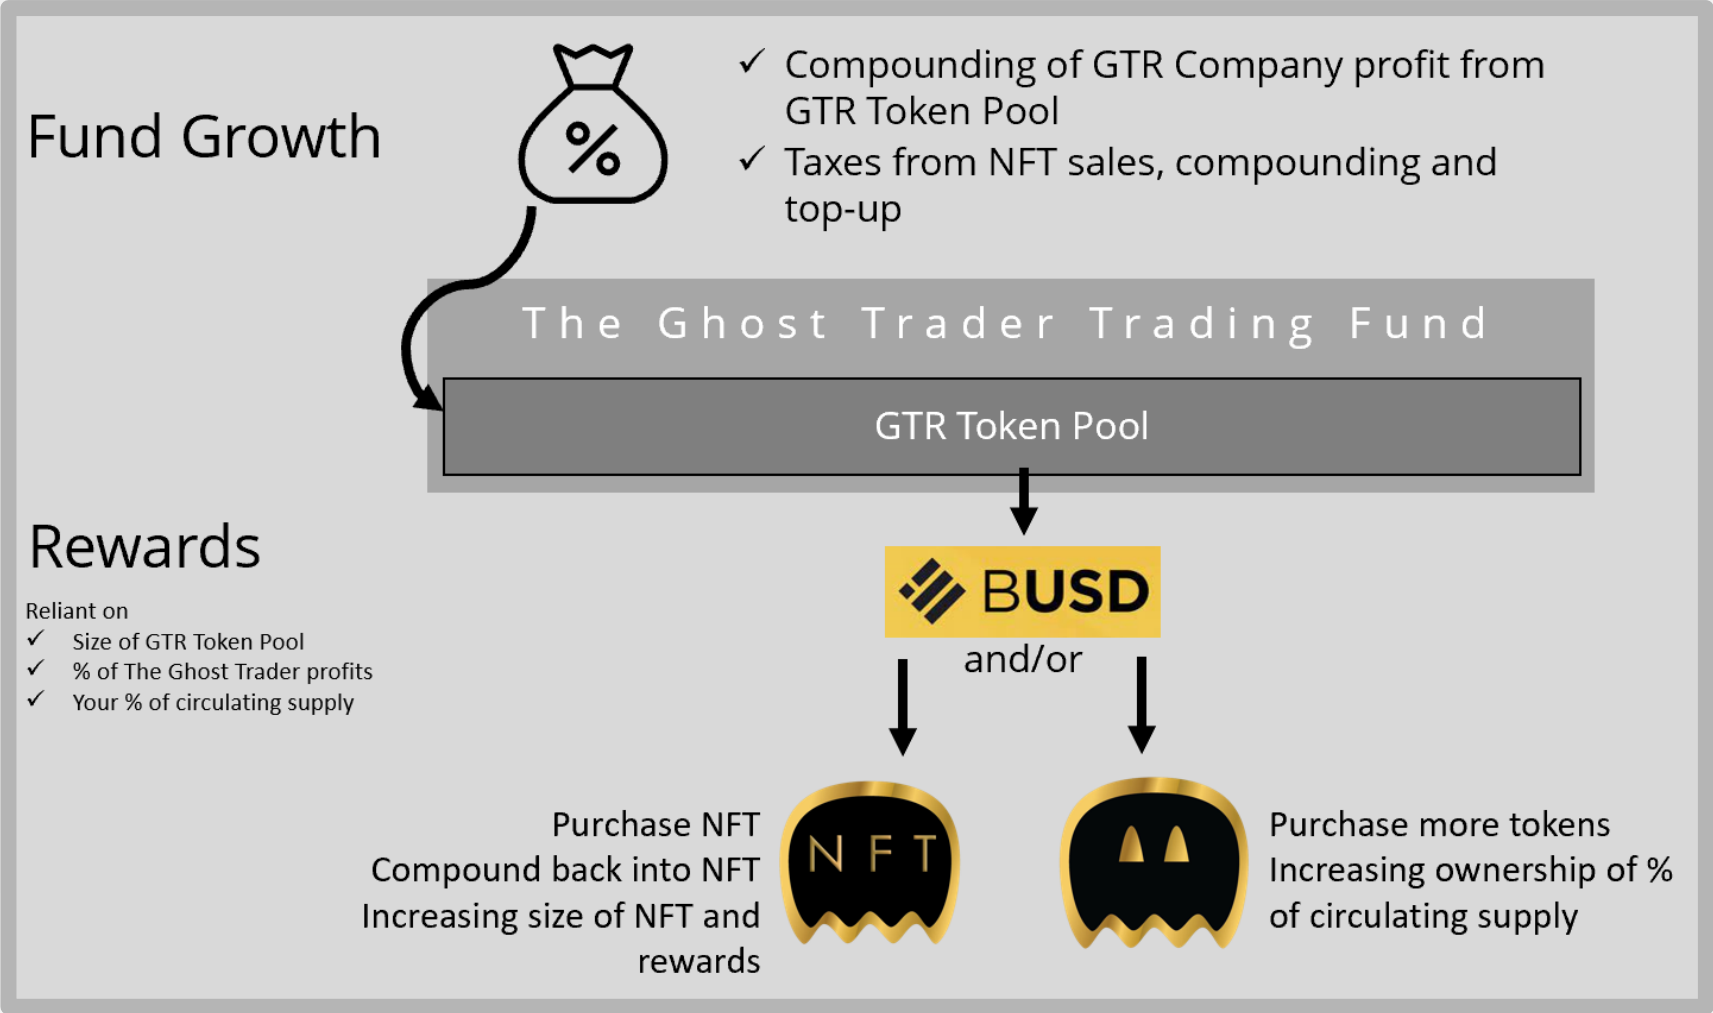

- ✓ The GTR Company auto-compounding their 50% of these trading profits
- ✓ Taxes from NFT purchases, compounding and top-ups

This further demonstrates their commitment to the ongoing success of the project.

Through strategic buying and selling of the token, new contributors can take advantage of the opportunity to grow their capital whilst also receiving rewards.

As a deflationary token, the GTR token will run for 48 months, during which time the Ghost Trader project will commit to locking up a maximum of 2 million tokens per trading month. These tokens will be generated by the buy/sell tax. The GTR Token should generate increasing rewards over time due to this deflationary mechanism combined with the growing trading pool. At the end of the 48-month period, GTR company will buy out the remaining tokens in circulation for a value no less than the final value of the GTR fund divided by the circulating tokens.

At this point the trading fund will have matured and will only pay rewards through NFTs

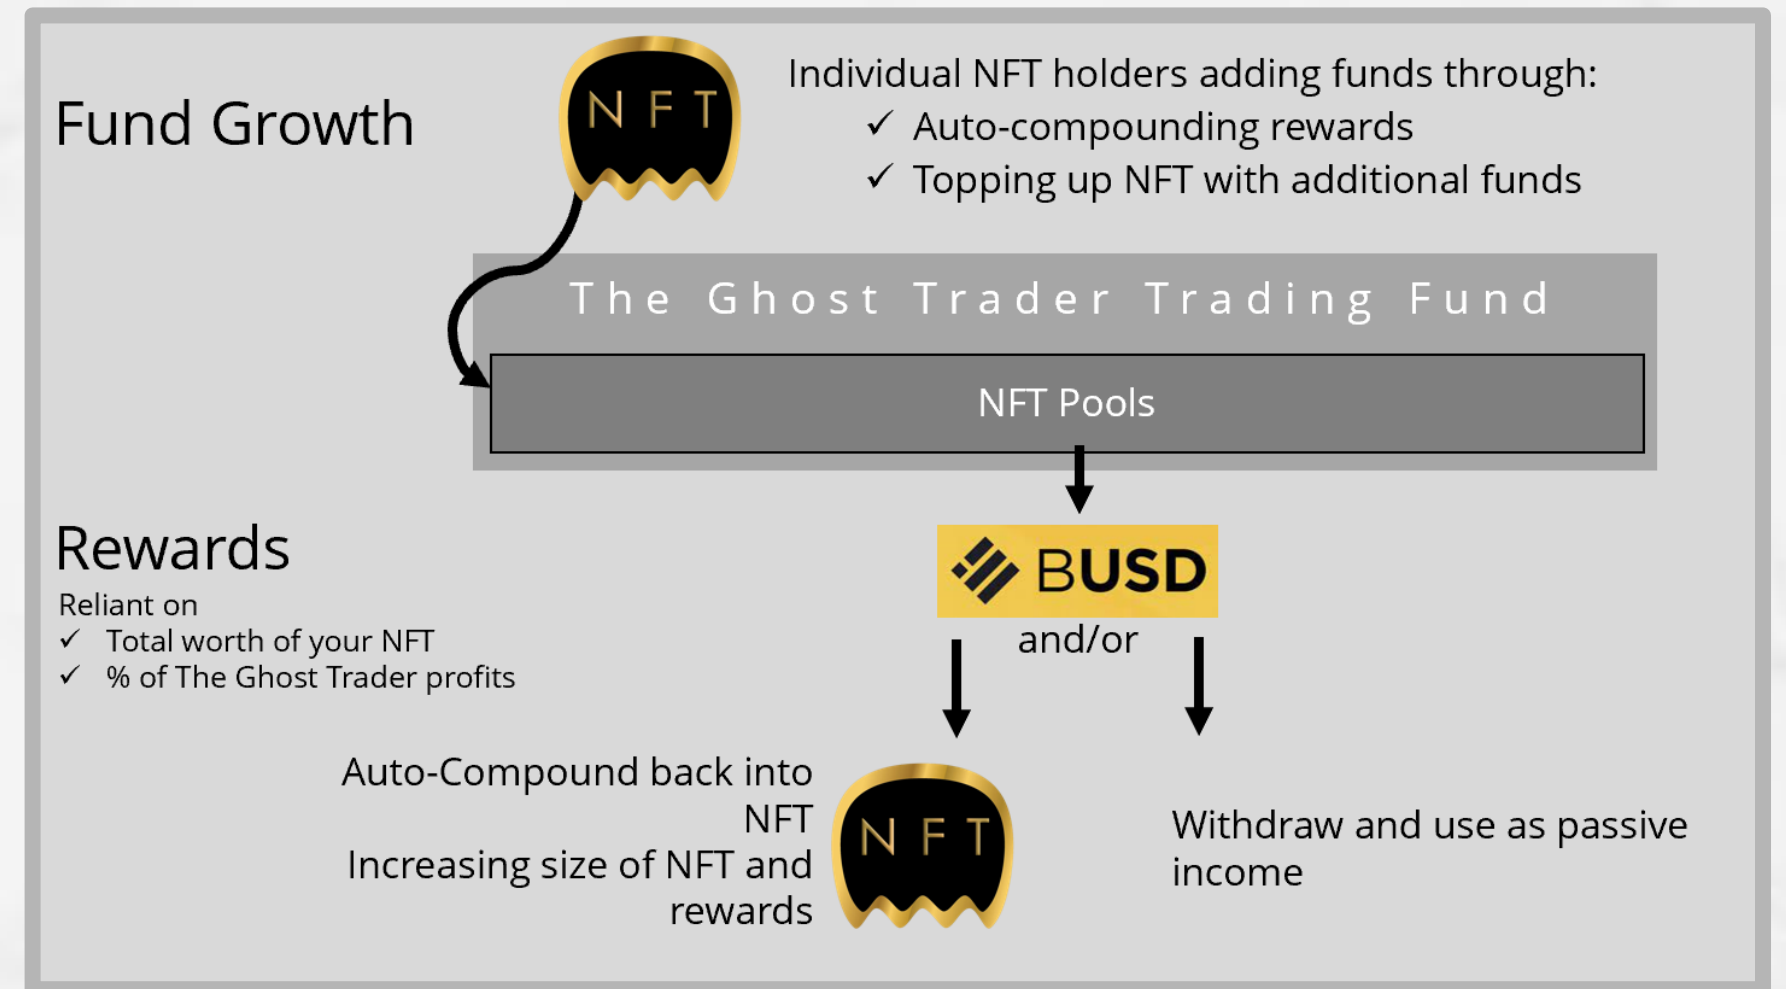

# NFTs

NFTs are unique in allowing holders to contribute funds directly to the trading pool, with the ability to compound your BUSD rewards back into your NFT and top-up your NFT with extra funds. The GTR NFT receives 50% of the profit made on the value of your NFT.

The amount received in rewards is purely dependent on the % of profit created by The Ghost Trader and the total worth of your NFT. For example: If you own a GTR NFT worth \$1500 (original purchase and top-ups) and The Ghost Trader makes 5% profit you will receive 50% of 5%:  $(\$1,500 \times 0.05) \div 2 = \$37.50$ .

The Ghost Trader NFTs will be limited to a total of 1,750::

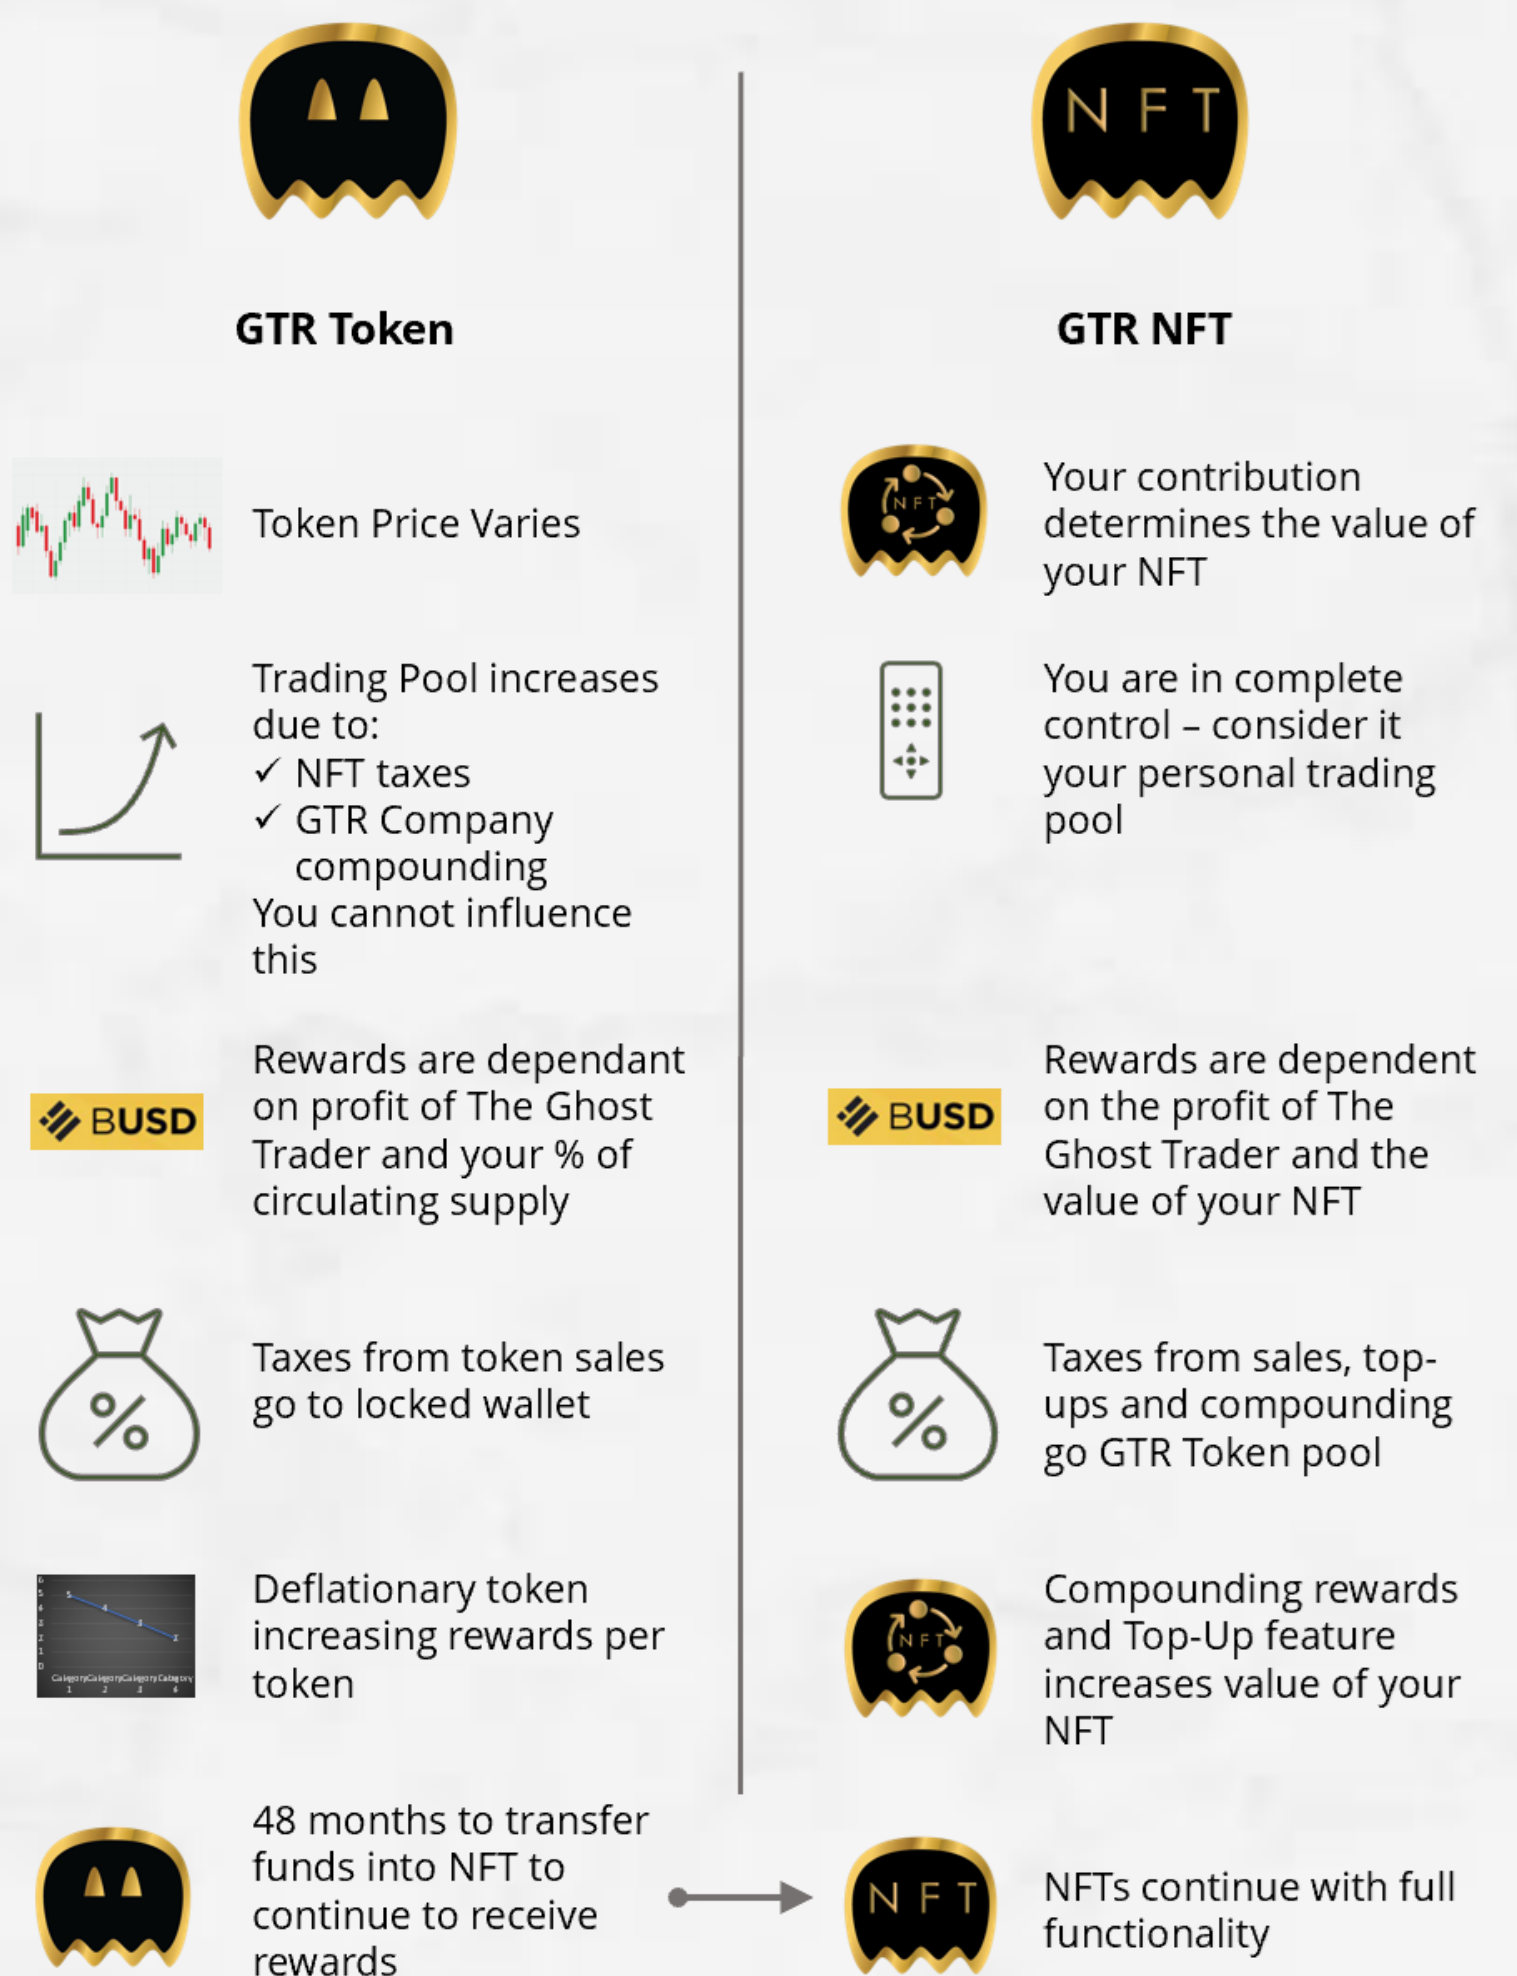

Name of NFT	# mints	Dates	Details
Silver NFT	1,080 available	Q2 2022 - ongoing	Being released in batches over the first half (24 months) of the project
Gold NFT	248 Issued	Q1 2022	Check the NFT marketplace for availability <a href="#">Here</a>
Diamond NFT	388 issued	Q2 2022	PRIVATE SALE Participants only, cannot be purchased or sold.

# GTR Token and NFT Comparison

The GTR Token and the GTR NFT work in combination to help participants take full advantage of what is on offer.

Personal preference will determine how each participant utilises the propositions available.

# Team

## Dennis: CFO/Co-Founder

The “Ghost Trader” has over 35 years’ experience trading in London, New York, and the Middle East. After a distinguished trading career for numerous major banks, he spent some time in the Middle East, running a busy Royal Family trading office. Since 1998, Dennis has traded for two major hedge funds, predominately in Forex. In the last 15 years he has expanded his day and shorter-term trading strategies to include the major indices, gold, and oil products. His ability to evaluate the markets in terms of volatility, and understand how other traders and “bots” control risk, enables him to make nimble moves in the market that other traders tend to overthink or overlook. He has an unblemished trading record, producing year-on-year returns of over 60% from 1998-2008. Since then, he also has achieved even larger returns trading for a hedge fund as one of the more aggressive portfolio traders in the group. Over the last two years, we have witnessed exceptionally volatile markets, while Dennis returned over 280% in 2020, and was already showing a return of 286% as of the end of October 2021. While these are exceptional years, the markets are clearly prone to even more volatility as more and more funds are diversifying into the digital asset class. Consequently, the “Ghost Trader” has taken a keen interest in the digital asset revolution, and has been a consultant for a leading U.S.-based cryptocurrency trading software provider for the past three years. His team provides him access to various skills that complement one another—such as technical analysis, momentum trading, and arbitrage trading. Overall, Dennis follows his own bespoke trading strategies.

## John: CEO/Co-Founder

Ghost Trader Don is an experienced and successful trader with more than 20 years of knowledge and experience. He has worked for a number of tier-one investment houses in both the City of London and internationally, trading commodities, oil, diamonds, bonds, gilts, and options. Prior to his trading career, John worked in the telecommunications space managing large international sales teams. As a skilled sales management professional and successful trader, John has both the knowledge and experience to make his dream come true. Cumulating in launching the world's first tokenized hedge fund, conceptualized over a number of years while working in partnership with his lifelong friend, The Ghost Trader. This eminently competent, experienced, and highly energized partnership will revolutionize the DeFi space, providing the everyday person with easy access to wealth-generating financial products typically reserved for the super-rich and elite of the world.

## **Karth: CTO/Executive Developer**

Our Lead Developer, our very own techno-wizard, has many years of programming experience in both cryptographic and non-cryptographic capacities. He is always seeking and searching for ways to make things more efficient and creating innovative, flawlessly executed functionalities. The Dev has numerous smaller coin projects under his belt. Respected and trusted in this space, he is also a leading member of the Gateway community, with many contacts in the Binance Smart Chain (BSC) space.

## **Mark: Chief Strategy Officer**

Mark has 20 years' experience working with blue chip companies and most recently a top FTSE 100 company in Information Technology. This has allowed him to gain a thorough understanding of the industry, strengthened through regular involvement with projects and with a proven track record providing technical solutions and services to corporate organizations.

Mark is heading the team operationally. He has a keen interest in crypto and blockchain technology since 2017 and other hobbies include cycling and enjoying the outdoors.

## **Magnus: Head of Architecture**

Magnus has led a fruitful career in the IT industry. Most recently he held the title of CTO for an Artificial Intelligence company where he hired and led multiple software, data and data service teams. Having experience in both infrastructure and software engineering gives Magnus a unique perspective, and has been beneficial in advising some of the large multi-national companies. He strives to apply these design principles and architecture patterns in crypto, resulting in faster time to market, better organisation, automation and more.

# Conclusion

Ghost Trader's motto is simple, straightforward, to the point: **Bridging the Divide.**

It informs every decision the team makes. The goal for Ghost Trader is to help create a fair system of decentralized finance, one that serves the needs of all that wish to be part of it — not just the ultra-rich. We insist on transparency and fairness. We value confidence based on competence. We seek fundamental value, not hype.

## CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained in this Lite Paper, statements made in press releases or in any place accessible by the public, and oral statements that may be made by Ghost Trader and/or the Distributor or their respective directors, executive officers or employees acting on behalf of Ghost Trader or the Distributor (as the case may be), that are not statements of historical fact, constitute “forward- looking statements”. Some of these statements can be identified by forward-looking terms such as “aim”, “target”, “anticipate”, “believe”, “could”, “estimate”, “expect”, “if”, “intend”, “may”, “plan”, “possible”, “probable”, “project”, “should”, “would”, “will” or other similar terms. However, these terms are not the exclusive means of identifying forward-looking statements. All statements regarding Ghost Trader and/or the Distributor’s financial position, business strategies, plans and prospects, and the future prospects of the industry which Ghost Trader and/or the Distributor is in are forward-looking statements. These forward-looking statements, including but not limited to statements as to Ghost Trader and/or the Distributor’s revenue and profitability, prospects, future plans, other expected industry trends and other matters discussed in this Lite Paper regarding Ghost Trader and/or the Distributor are matters that are not historic facts, but only predictions.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of Ghost Trader and/or the Distributor to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements. These factors include, amongst others: (a) changes in political, social, economic and stock or cryptocurrency market conditions, and the regulatory environment in the countries in which Ghost Trader and/or the Distributor conducts its respective businesses and operations; (b) the risk that Ghost Trader and/or the Distributor may be unable or execute or implement their respective business strategies and future plans; (c) changes in interest rates and exchange rates of fiat currencies and cryptocurrencies; (d) changes in the anticipated growth strategies and expected internal growth of Ghost Trader and/or the Distributor; (e) changes in the availability and fees payable to Ghost Trader and/or the Distributor in connection with their respective businesses and operations; (f) changes in the availability and salaries of employees who are required by Ghost Trader and/or the Distributor to operate their respective businesses and operations; (g) changes in preferences of customers of Ghost Trader and/or the Distributor; (h) changes in competitive conditions under which Ghost Trader and/or the Distributor operate, and the ability of Ghost Trader and/or the Distributor to compete under such conditions; (i) changes in the future capital needs of Ghost Trader and/or the Distributor and the availability of financing and capital to fund such needs; (j) war or acts of international or domestic terrorism; (k) occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or operations of Ghost Trader and/or the Distributor; (l) other factors beyond the control of Ghost Trader and/or the Distributor; and (m) any risk and uncertainties associated with Ghost Trader and/or the Distributor and their businesses and operations, the Ghost Trader tokens, the Ghost Trader Initial Token Sale. All forward-looking statements made by or attributable to Ghost Trader and/or the Distributor or persons acting on behalf of Ghost Trader and/or the Distributor are expressly qualified in their entirety by such factors. Given that risks and uncertainties that may cause the actual future results, performance or achievements of Ghost Trader and/or the Distributor to be materially different from that expected, expressed or implied by the forward-looking statements in this Lite Paper, undue reliance must not be placed on these statements. These forward-looking statements are applicable only as of the date of this Lite Paper. Neither Ghost Trader, the Distributor nor any other person represents, warrants and/or undertakes that the actual future results, performance or achievements of Ghost Trader and/or the Distributor will be as discussed in those forward-looking statements.

The actual results, performance or achievements of Ghost Trader and/or the Distributor may differ materially from those anticipated in these forward- looking statements. Nothing contained in this Lite Paper is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of Ghost Trader and/or the Distributor. Further, Ghost Trader and/or the Distributor disclaim any responsibility to update any of those forward- looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future. MARKET AND INDUSTRY INFORMATION AND NO CONSENT OF OTHER PERSONS This Lite Paper includes market and industry information and forecasts that have been obtained from internal surveys, reports and studies, where appropriate, as well as market research, publicly available information and industry publications. Such surveys, reports, studies, market research, publicly available information and publications generally state that the information that they contain has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of such included information. Save for Ghost Trader, the Distributor and their respective directors, executive officers and employees, no person has provided his or her consent to the inclusion and/ or other information attributed or perceived to be attributed to such person in connection therewith in this Lite Paper and no representation, warranty or undertaking is or purported to be provided as to the accuracy or completeness of such information by such person and such persons shall not be obliged to provide any updates on the same. While Ghost Trader and/or the Distributor have taken reasonable actions to ensure that the information is extracted accurately and in its proper context, Ghost Trader and/or the Distributor have not conducted any independent review of the information extracted from third party sources, verified the accuracy or completeness of such information or ascertained the underlying economic assumptions relied upon therein. Consequently, neither Ghost Trader, the Distributor, nor their respective directors, executive officers and employees acting on their behalf makes any representation or warranty as to the accuracy or completeness of such information and shall not be obliged to provide any updates on the same.
