

KAIKEN SHIBA

White paper >

INTRO- DUCTION

Kaiken Shiba (\$ KSHIB) launched in July 2021 and currently has become one of the fastest growing cryptocurrencies of its kind. This is a new cryptocurrency created by members of the Doge Coin online community, with completely decentralized properties and mission to bring encryption technology to everyone. Kaiken Shiba's blocking speed is innovated with 10x faster and cheaper gas fees since it was established on binance smart chain. Kaiken Shiba is not only hyper-deflationary with a built-in smart betting system to reward holders, but also helps save dogs that are in need. Trust, hold and watch your Kaiken Shiba grow everyday.

& STATS**

Kaiken Shiba Swap

We are one of the first memetic currencies that directly provide real-time decentralized transactions on our website immediately after aher launch.

Kaiken Shiba Card Pay

We are one of the first memetic currencies to provide credit cards for encrypted payments directly on our website.

Kaiken Shiba Paw Wallet

On our roadmap, our Paw wallet will allow users to track rewards obtained through thinking, wallet balance, coin valuation, etc.

Kaiken Shiba Swag

A merchandising store for KSHIB holders who can proudly support their favorite memes in the real world. Proceeds will benefit the project and help more dogs in need.

Kaiken Shiba NFT's

The biggest project we are working on is launching on our NFT market. We will allow users to create and buy / auction their own NFTs, and we plan to allow users to donate% to help save more dogs.

Dream Big with Shiba Meme

Kaiken Shiba is an interesting meme whose serious mission is to rescue dogs in need, bringing the adoption of cryptocurrency into the mainstream through new concepts such as bounty, NFTS, decentralized exchange and credit cards on our website.

TRUST

Trust is the most important thing in the cryptocurrency market. This means complete transparency not only in terms of community and development, but also in terms of insecure efforts. Kaiken Shiba has passed the audit of the third financial department and has burned and blocked most of the LP tokens. There is no carpet here, only the powerful Kaiken Shiba.

COMMUNITY

Kaiken Shiba is decentralized and supported by its fan community. We encourage open communication and believe that trust, transparency and community are the three pillars of longevity.

TRANSPARENCY

Kaiken Shiba is one of the fastest growing and most popular communities in the encryption field. We believe that we can only be strong if we are together. Community is everything, Kaiken Shiba strives to involve everyone from all over the world. We have several Telegram channels dedicated to the international community.

LONGEVITY

Kaiken Shiba is ready for long-distance travel. Decentralized communities are nurturing and embracing long-term ecosystems and grassroots development to drive real use cases and higher returns beyond any temporary trends.

The Binance Smart Chain (BSC) was developed to use smart contracts based on robustness, and its speed and efficiency are much faster than other competing chains. As the decentralized exchange in BSC provides ultra-fast transactions and extremely low fees, BSC has begun to become one of the most commonly used blockchains in decentralized finance (Defi). BSC uses a token protocol called BEP20 developed by Bin. Known for a block speed of 5 seconds, it is much faster than Doge, which has a block speed of 1 minute. These two articles compare the block generation speed:

Doge 1 minute:

Bep20/BSC 5 seconds:

The advantages of Binance Smart Chain are: It is a sovereign blockchain that will provide security and protection for all users and developers. Its native dual-chain interoperability will allow cross-chain communication and expansion of high-quality apps that require a fast and smooth user experience. It conforms to EVM and will support all existing Ethereum tools and faster and cheaper transactions. Its on-chain governance based on the proof-of-stake consensus is built on 21 verifiers who verify transactions, which will provide decentralization and achieve meaningful community participation.

Kaiken Shiba is not responsible for the behavior of the Binance Smart Chain network.

COMMUNITY POWERED

Kaiken Shiba is completely decentralized and owned by its interesting and vibrant community. We welcome and accept different opinions, making Kaiken Shiba the best crypto community. A good mission to help save dogs in need.

INSTANT REWARD

For every transaction on the Kaiken Shiba network, a 5% fee will be distributed to existing holders. This means you can earn more by simply putting Kaiken Shiba in your wallet. Watch your Kaiken Shiba grow with every transaction!

LOCKED LIQUIDITY POOL (LP)

Liquidity tokens that are burned and blocked. In addition, 5% of all transaction fees are added to liquidity.

In each transaction & each trade, the transaction is charged a 10% fee, which is split 2 ways.
