# STAKING PLATFORM

# THE EVOLUTION OF NFTs

- *Kokoswap's invite-only exclusive NFT platform is in the perfect spot to become the marketplace of choosing for celebrities and supporters, while also providing a trusted environment for stars to debut in the NFT hype and elevate their brand, owing to our unrivaled international network.*
- *Fans have a lot of visibility over their favorite stars' activities in today's positively contentious social media landscape, but interaction levels are incredibly limited. While the growing NFT space is making it easier for celebrities to create high-value digital representations of their work, the fan-celeb experiential narrative has yet to be properly addressed.*
- *KokoSwap redefines the criteria of fan engagement by facilitating fans to have their fandom reinforced, increasing access to authentic celebrity experiences, and providing a platform for NFT trading.*

# KOKO AVATAR

  - *Thousands of accessories, skins, and limited-edition merchandise will be minted as NFTs and made available for trading and auction to our fellow gorillas.*
  - *Special NFT badges will be minted in addition to player customizations.*
- *These NFT badges will be inspired by the real Koko gorilla from The Gorilla Foundation in California, who learnt the gorilla sign language and could communicate with humans.*
  - *1000 badges will be produced to represent the 1000 different signs that Koko learnt.*
