TABLE OF CONTENTS

INTRODUCTION

We are a group of people who believe and plan online 3D virtual environments. We are here to create a metaverse in a health space to let people enjoy and collect coins!

MetaDoctor is a blockchain technology that allows you to meet with your doctor live wherever you are in the world and provides answers to many questions with the fully developed MetaDoctor assistant.

Imagine a real doctor who will instantly access the information you allow and listen to you in front of you! Wherever you are in the world, it will prepare your treatment methods and prescription online.

In addition, with the MetaDoctor Artificial Intelligence Assistant, which is constantly improving, you will be able to find the most suitable solution for your disease without reaching a doctor.

MetaDoctor ($MEDOC) is a decentralized BEP-20 Crypto Currency token. $MEDOC token rewards loyalty, which is why 3% of all transactions go to their holders. Such a hight percentage is crazy, but we want to support the holders of these tokens.

DISCLAIMER

MetaDoctor, including but not limited to the overall project, token, website, smart contracts and any apps ("MEDOC") as presented in this conceptual paper is not a licensed, unlicensed or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this Whitepaper, on the Website or within the app is intended only as a basic reference, without any eﬀective or legal meaning of the same terms in a regulated and/or financial environment. MetaDoctor is a community-driven project and does not have owners, shareholders, promoters, marketers, managers, directors, or other figures or entities exerting any form of governance. The MetaDoctor smart contracts are open-source, security audited, permanent and non-modifiable in any way. The MetaDoctor token is strictly a utility token in all jurisdictions and is not and cannot be considered to be a "security" or otherwise regulated token of any kind. MetaDoctor is not in any way e-money and/or fiat money, or an asset backed stablecoin, whether global or limited in scope. This Whitepaper taken by itself is not a contract or a contractual agreement of any kind, nor is it an invitation, solicitation or ofter to invest in MetaDoctor or acquire or use MetaDoctor tokens in any way and with any expectation of profit therefrom. Any user of MetaDoctor represents and warrants that such user has received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this Whitepaper or the Website, and/or using any portion or element of MetaDoctor (including the MetaDoctor token). The user hereby acknowledges and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or crypto system, token, platform, software or inteface, including MetaDoctor, and further disavows any claim of any kind against any community member directly or indirectly involved with MetaDoctor, for any damage suﬀered, including total loss. MetaDoctor makes a credit card interface available on its website solely for the users' convenience.

WHERE TO USE?

Ask your doctor any question you want from any-where in the world 24/7 remotely.
