

MicroPee

What is MicroPee

MicroPee is a grower. Don't be ashamed of **\$pee**, it burns each day and when it's done burning, it grows.

MicroPee is powered by MetaPlay and requires your funds to grow. Each dollar invested prevents MicroPee from feeling ashamed of the size of its **\$pee** and allows MicroPee's wallet to do the talking.

MicroPee needs your help to stop the daily burn, so please invest and grow this little **\$pee** so that we can arrive at the token amount of 100,000,000 **\$pee**

Remember, it's not the size your **\$pee** that matters. What matters is that MicroPee has a lot of cashflow and burns daily.

Roadmap
