IIINTRODUCTIONOK

PEACE OF MIND COIN (**POMCOIN**) all started with a simple question. What would happen if we gave people a real chance to escape the 'matrix'?

"This is the ultimate experiment in human free-will and community building."

- Our founders, **Crypto Morpheus**

We are all too familiar with the problems that this matrix presents for the majority of us. While a very small minority get to enjoy the privileges and the benefits in this world.

And sadly, this matrix we're all existing in, is working just fine. It's doing exactly what it was created to do. This system was designed to use you up and spit you out.

WHAT IS THE MATRIX?

If you saw the movie, then you know exactly what the matrix is. We live in it right now. We're immersed in it. It surrounds us.

Simply put, the matrix is a system of beliefs imposed on you by the ruling class, that are designed to control your mind and exploit your labor.

The functions of this matrix we're all living in, is to keep you sick, confused, frustrated, ignorant, and hopeless. It was created to keep you in the struggle.

And one of the primary tools of this matrix is money. So the system spits out just enough of it to keep you motivated and hungry for more.

It's sinister. But it's genius.

WHY DEFI?

The old system of banking is the very foundation that directly supports the pillars of this matrix we're living in. And the banking system has gatekeepers. And those gatekeepers are very powerful.

They monitor your every move. Every transaction. And there are safeguards in place to keep you in a debt trap. And how the current tax code is set up, you're kept in a perpetual state of lack and struggle.

This system is purposeful and wicked. It was created to limit your upward mobility in every way possible. But decentralized finance 'Defi' is the only way out.

Defi allows us the anonymity that we need to escape the rat race. The matrix. It allows us to operate outside of the strict confines of the system. It puts upward mobility back into the hands of the people, where it belongs.

This oppressive system shouldn't have the power to determine your freedom.

SO WHY POMCOIN?

PEACE OF MIND COIN (**POMCOIN**) was created for those individuals that know that cryptocurrency is not only the greatest asset class ever invented. But it's also the **ONLY** thing that can break you out of this matrix and give you true peace of mind.

And that's why we named it that. Because peace of mind is what we're all truly in it for. It's the ultimate goal. **POMCOIN** was born out of the idea that human beings were not created to be corporate slaves. Human beings aren't meant to just work, work, work, then die. Human beings aren't meant to live in a constant state of struggle. Human beings were to designed to be **FREE**.

To be limitless and boundless. To live in absolute freedom and joy. To experience every pleasure that this simulation has to offer.

And this is what **POMCOIN** was designed to do. To build and use our community to facilitate real peace of mind.

WHY BINANCE SMART CHAIN?

We chose the Binance Smart Chain blockchain for a few key reasons. Low gas fees. We could have chosen ETH, but the gas fees alone present a massive issue. Global adoption. Binance Smart Chain network has the most transaction volume in the world. And lastly, no corporate supervision or regulation. This is the entire point of decentralized finance.

We wanted to ensure more safety so that our holders can hold **POMCOIN** in their own wallet. And collect payment between holders. We wanted to remain vigilantly independent and provide a project for our community to HODL for gains and change their lives.

The Binance Smart Chain network was an obvious choice for us because it perfectly suited our community's needs.

WHO ARE OUR FOUNDERS?

Our founders are a collective called **Crypto Morpheus**. The collective was formed because of a shared vision and belief. **Crypto Morpheus** believes in freedom and peace, for those individuals that truly want it.

As stated above, the current system isn't meant to be escaped. It's meant to be suffered through. It's meant to be endured. This world wasn't made for thinking and feeling human beings. It was meant to be experienced by robotic slaves.

Your purpose in this system is to perform like batteries inside of a tv remote. And that's why **Crypto Morpheus** cannot just sit back and do nothing

This new wave of financial technology is the only thing that will allow us to break free. And our collective will fight for the chance to provide human beings the choice to experience real peace of mind. Because nobody else will do it.

"Crypto is our last saving grace."

- Our founder, **Crypto Morpheus**.

conclusion

This all began with a simple question. If human beings really had the chance to choose between corporate slavery and true peace of mind, would they really choose peace of mind? Could the **POMCOIN** community follow a similar trajectory as another popular community-driven project that's out there>

Simply put, this is the beginning of a new era, when it comes to decentralized finance and decentralized communities. This is a real social experiment in which the success of it depends on the mass adoption of our community's core objective: to escape the matrix. And the only way to do that is to participate in the right decentralized project and HODL. for exponential growth.

So we would like to take this opportunity to say thank you to each and every one of you for joining the **POMCOIN** community. If you're reading this and you believe in experiencing the absolute best that this simulation (matrix) that we live in, then the choice is already made. And remember this...

"We're only offering the truth...nothing more."

- Crypto Morpheus
