Most goals in the World Cup:

Miroslav Klose 16 goals

Ronaldo Nazário 15 goals

Gerd Müller 14 goals

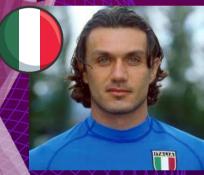

Most games in the World Cup:

Lothar Matthäus 25 games

Miroslav Klose 24 games

Paolo Maldini 23 games

Most appearances in the World Cup:

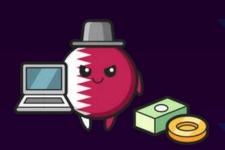

Antonio Carbajal 5 appearances

Lothar Matthäus 5 appearances

Rafael Márquez 5 appearances

About The FWC Token:

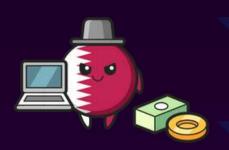

Introduction

FWC is a self-staking token that had its ownership renounced and given to the community upon its creation. This decentralization of power has allowed Fwc to flourish as a 100% community-driven project with markedly engaged holders and rapid growth on a daily basis.

Released February 10, 2022 on the Binance Smart Chain network, the Fwc project has been iteratively built and improved upon by volunteers within the community since its inception. Graphic designers, writers, web developers, influencers, marketers, data analysts, translators, and more have contributed their talents to help Fwc grow into an inspirational model of community-driven success.

The project has become a unique social experiment in which the investors are integrated into the project both from a community and developmental standpoint. With so much progress achieved by its community in such a short amount of time, Fwc stands as a solid milestone in this progressive, exciting age of the Social Blockchain.

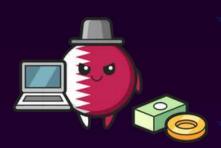

Security

Fwc is safe by design. It is an ownership-renounced token with each buy and sell automatically contributing to a liquidity pool that is locked forever. Furthermore, half of the total supply was burnt into a dead address in the project's beginning. It is impossible to modify Fwc's contract, and it is impossible to pull liquidity from it. The team behind Fwc is a fully volunteer team.

- · No presale was conducted, allowing for a fair launch.
- The ownership of Fwc was renounced upon its creation to a dead address. The Fwc Team consists entirely of community volunteers who are also invested in FWC.
- The initial liquidity and 50% of Fwc's total supply was sent to the dead address at the project's beginning.

With the help of investors' donations, the Fwc smart contract was professionally audited by TechRate, which confirmed the token as safe:

Audit Results

- No high-severity issues
- No medium-severity issues
- No low-severity issues No owner privileges

Audit report is available to view on TechRate.org and on our GitHub https://github.com/TechRate/Smart-Contract-Audits

Helpful Notes

Dead address - Address that has no one has any control or access to essentially 'dead'

Liquidity pool - A pool of paired tokens that can be swapped between each other. In the case of FWC/BNB, FWC can be swapped for BNB and vice versa.

Transparency

Transparency is one of the Fwc Team's highest priorities. New volunteers are frequently added into the Fwc Team to ensure community representation, and community voting is regularly conducted to help decide the best direction of the project.

For example, community votes have been taken on how to allocate funds, which exchanges to focus on, which shelters to donate to, and even which logo to use for the Fwc token. The Fwc Team hopes to evolve this into a governance system based on FWC holdings.

Community Wallet

As a community-driven project with no dev wallets, the Fwc Team opted to create a community wallet that members can donate to in order to further build the project. The community wallet has multisig protection, making it so multiple people are required to approve any transaction.

The community wallet has been successful in funding many causes for the Fwc project, including:

Azbit

Audit techrate

Coinsbit listing

Coinmarketcap

UniRocket & PriceBot advertisements

MM services

Cointiger, paid by team.

Details Of Supply Token:

Tokenomics

The tokenomics of Fwc are as follows:

200,000,000,000,000 initial total supply

54,713,042,005,332,000 Circulating Supply

145,287,958,995,668,000 (72.6%) of the total supply burnt & sent to a dead address prior to release

(\$) Infinite max limit of FWC per trade

There is no fee (0.1%)

40,000,000,000,000,000 Listed in pancakeswap

15.000.000.000.000 was allocated for marketing

Rewards

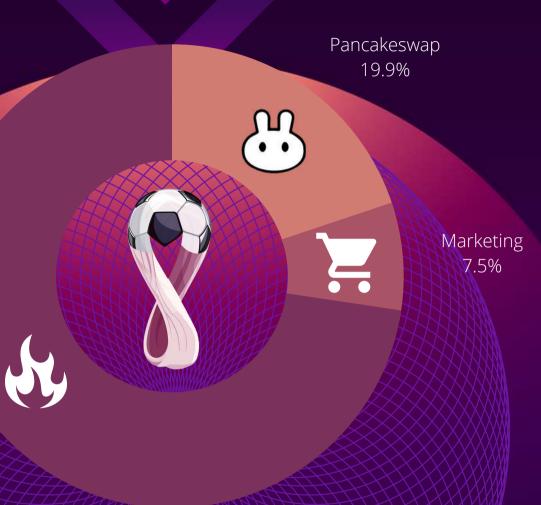

"To see growing price of FWC in your wallet just by holding is priceless."

Use Cases / Ecosystem

The volunteer software and web development team is constantly working to bring new utility to FWC. DesFWCe being only about two months old (launch date 01/16/2022), there are already various projects released and underway.

Released

FWCTracker (Beta)

Coming soon....

FWCCharts (Beta)

Coming soon...

FWCFarm (Beta)

This will allow users to stake FWC-BNB v1 for points to redeem official Fwc NFTs, or buy them straight out. These NFTs can be traded in the marketplace, and the sales will go towards the Fwc community fund and artist as a minting fee. The funds raised will go towards charity, project development, and burning Fwc tokens.

The funds from NFT sales are distributed as follows:

15% goes to marketing

15% goes to shelter donations

60% is sent to the FWC liquidity pool

10% for the minting and designing process

FWCSwap (Alpha)

FWC Team:

Because the ownership of Fwe was renounced upon creation, the Fwc Team is composed entirely of volunteers.

The community leads are:

Leo King - CEO & Lead Blockchain

Zizou - CTO & Senior Developer

Ronaldinho - Blockchain App Developer

Black Tiger - Community Management

There are also various groups structured under the Fwc Team, including but not limited to ...

Administration

23 members work together to coordinate the direction of the Fwc project and propose helpful use cases for the token.

Marketing

11 members analyze how to optimize social outreach and manage official Fwc social media as ideally determined.

Media

14 members design original images, videos, and music to promote the Fwc project in a professional and engaging way.

Software/Web Development

21 members work together to build various applications which utilize the FWC token. This is where applications like FWCCharts and FWCTracker are built.

In addition to this, the Fwc Team has groups dedicated to writing/translation, communications, moderation, and support. The number of volunteers is ever-expanding as the Fwc project reaches a wider audience.

Qatar 2022 Token (FWC) will change to (FWC CountryX 202X Token) after the World Cup.

This version changes every four years.

DISCLAMIER

Qatar 2022 Token (henceforth referred to as "FWC") are not intended to constitute securities, units in a business trust, or units in a collective investment scheme or its equivalent or any other regulated products in any jurisdiction.

This Whitepaper is meant to provide more information on the FWC Token Economy, its utility and its functions, and does not constitute a prospectus or offer document of any sort. This Whitepaper does not constitute or form part of any opinion or any advice to sell, or any recommendation or solicitation of any offer to purchase FWC nor shall it or any part of it or the fact of its presentation form the basis of, any contract or investment decision. No regulatory authority has examined or approved any of the information set out in this Whitepaper. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of this Whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied with. This Whitepaper, any part thereof and any copy thereof must not be taken or transmitted to any country where distribution or dissemination of this Whitepaper is prohibited or restricted.
