

SUBAWU COIN

WHITEPAPER 1.0

# INTRODUCTION

## What is the Subawu Token?

The Subawu Token was explicitly designed to be a community-driven, ownership-renounced token with the ultimate goal to help investors financially. The coin was created with Subaru fans in mind, but is intended for everyone who loves cars.

Anyone can join the Subawu community, with the provision that their behavior reflects the community spirit of kindness, transparency and philanthropy. The token is entirely community-driven, and was designed to be a community commodity for goodness.

## Why Should I Invest in the Subawu Token?

Our pledge is to conduct all transactions publicly, honestly, and with the intent to allow this cryptocurrency to behave as it should in the wild. In an environment free of the fear of rug-pulls, liquidity theft or “pumping and dumping,” this token can progress as far as the community that supports it.

- 100% SAFE Project
- Long Term Value
- Low Market Cap
- Passive Income
- Community Driven

## Disclaimer

While the Subawu Token is intended to create a community, nothing in this document is intended as financial advice. Please research this (and all) cryptocurrencies thoroughly before investing in them. By purchasing Subawu Tokens, you are aware that this is not a security or investment. Please do not invest anything you cannot afford to lose, use your head, and consult a financial advisor with any questions about investing in a financial market.

# THE COIN

**The Subawu token rolled off the assembly line on March 4, 2022.**

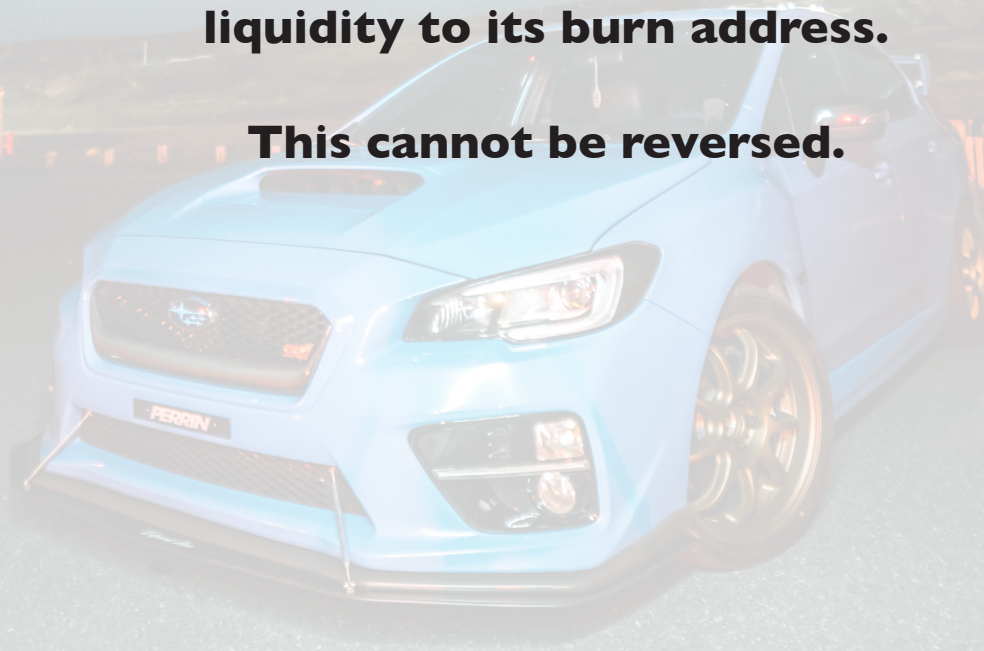

**At the time of minting, 14% of the coin was burned.**

**3% of the coin is locked into a dual-signature marketing wallet for the purpose of donations.**

**The Gnosis Safe Wallet can be viewed here:  
<https://gnosis-safe.io/app/bnb:0xA87eC04Bf3047fB0CD-C7bbe22BD83Ee01330eA46/balances>**

**Shortly thereafter, ownership of the project was renounced by sending the initial capital and project liquidity to its burn address.**

**This cannot be reversed.**
