

A white dog with striking blue eyes is sitting in a vast, snowy landscape. The dog is looking directly at the camera. The background shows rolling hills or mountains under a soft, hazy sky. A semi-transparent pink circle is overlaid on the left side of the dog's head.

WINTER DOG

Bringing together the
meme, the utility and the
charity.

WINTERDOG.

Bringing together the meme, the utility
and the charity.

WINTERDOG. THE NFTS. THE UTILITY. THE
CHARITY.

What is Winterdog? Winterdog is
combining the latest blockchain
technology in order to create the
perfect development environment.

THE NFTS.

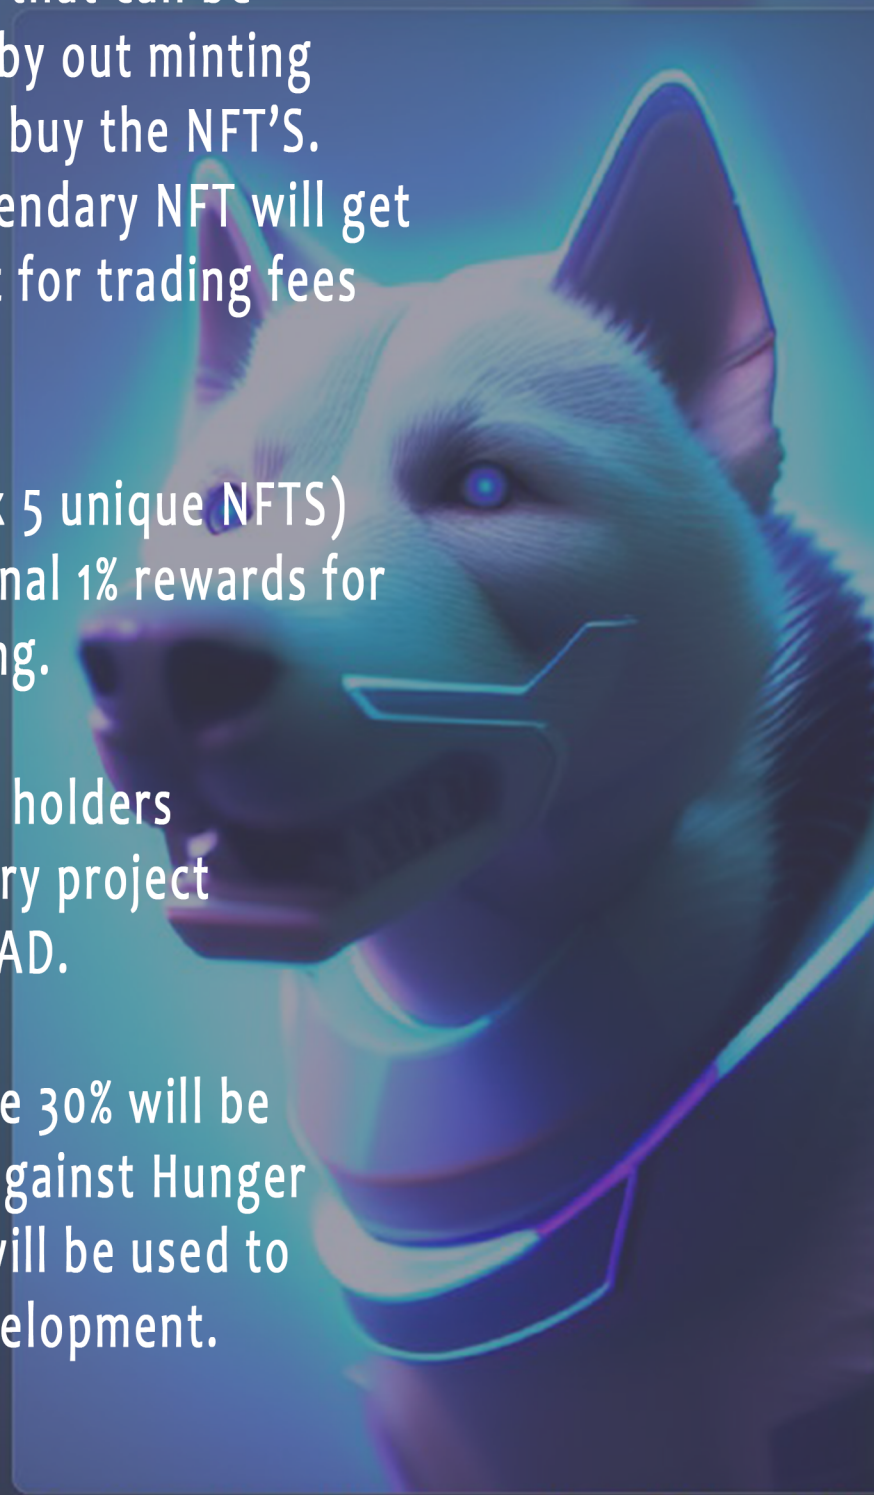

Winterdog will release an unique 267 NFT collection that will be minted by holders.

There will be 2 Legendary and top tier NFT'S, each unique that can be randomly dropped by our minting platform when you buy the NFT'S. Owning one of Legendary NFT will get your wallet exempt for trading fees forever.

The rare NFTS (3 x 5 unique NFTS) will gain an additional 1% rewards for the holder at staking.

All NFT will get the holders Whitelisted for every project launched on SAFEPAD.

From the NFTS price 30% will be donated to World against Hunger initiative and 70% will be used to further project development.

THE UTILITY.

SAFEPAD. The launchpad. Powered by Winterdog.

SAFEPAD will be a next gen launchpad that will provide developer a faster, easier and safer way to launch their projects. Even if there are several successful launchpads on the market at moment we will try to provide premium and professional services for developers.

KYC AND AUDITED – Most of existing launchpads are demanding extra commissions for KYC and Audit services, a developer being charged almost 1 k \$ for being able to have the badge on the launch platform. We want to cut the expenses for launching a project so our parents will provide those services for a maximum charge of 250\$.

Each project launched will have it s own consultant, that will advice on proper launch services, including the marketing based on the project utility.

Also, we will help contacting the influencers, and each user of SAFEPAD will receive a 10% discount on marketing packages.

SAFEPAD rates and Winterdog buyback and burn.
SAFEPAD will not charge any tokens for launching a project. SAFEPAD will charge only 2% for the amount raised in BNB.

1,3 % will be used for project development and launchpad maintenance and upgrade

0.7% will be used for buyback and burn Winterdog weekly.

THE CHARITY.

We will constantly donate to UN World Food Programme.

Part of NFT income will be donated and later, when the project will be sustainable, we will have monthly donations.

All donations will be transparent and investors will be provided with donations proofs.
